RE: Docket Number 92257

Dear Assistant Secretary Caton:

The Alexander Graham Bell Association for the Deaf is a 104 year old non-profit membership organization serving individuals who are hard of hearing or deaf; parents of children with hearing impairments; and the professionals who provide services for children and adults with hearing loss. Auditory assistive devices are key to our members, young and old, for educational, vocational, and social access to information. At our biennial convention in Rochester, New York, our membership joined forces in support of the attached petition.

On behalf of our membership and many organizations of, by, and for the hard of hearing and deaf, I respectfully request your immediate attention to designation of specific frequency bands for auditory assistive devices.

Sincerely,

Donna McCord Dickman, Ph.D.  
Executive Director
